## DETAILED ACTION

### *Allowable Subject Matter*

Claims 11-12 and 14 are allowed.

The following is an examiner's statement of reasons for allowance:

As pointed out in Applicant's arguments dated 4/9/04, the Dennison reference fails to teach having "at least three of the devices having three different respective threshold voltages". The Examiner's previous § 103 rejection has been overcome because although Dennison does teach short channel effects are reduced (aka threshold voltage) and that repetition of parts is an obvious variation, there is nothing to suggest modifying Dennison to include a third device having a different threshold voltage from the other two. Consequently, Applicant's claims are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

This application is in condition for allowance except for the following formal matters:

Withdrawn claims 13 and 15 need to be canceled.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
